Claudia

Thanks for the notes. I just left Monica a long rambling message on the next steps with UT that she can ignore now. I agree that it was a good call.

Ex. 5 - Deliberative Process

Subject: U&O FIP: Moving forward and option selection

All,

This latest version of the options table contains notes from the call we just had with Utah, as well as some different cost numbers some of us discussed throughout the day (I will save it to the I drive when I return to the office tomorrow). It was a very productive call with Utah. It sounds like they are on the same page as us and option 1 is their

preferred option, as it aligns most closely with what they are already doing and planning to do for existing sources in their second phase of rulemakings.

The next step is to arrange a technical call with EPA and UT permit and SIP engineers to develop a proposal point by point so that we can both put out something consistent at the same time. I am going to work with Sheila Vance to set that up for some time the week of 9/21.

Thanks,

Claudia

We can discuss it with everyone at Monday's meeting, but I am ok with that plan for our purposes this week. Jody or Alexas, do you have any objections?
